1. INSTRUCTIONS FOR USE

1.0 LOGIN PAGE

When Users visit the website they will be directed to the Login Page by a “Here” Link or Directly

The screenshot shows a login form titled "MyItemLog". It features two input fields: "Username*" and "Password*", both with white text on a light gray background. Below the password field is a dark gray "Login" button. At the bottom, there is a link that says "Dont Have an Account? Create One [Here](#)".

Login Page

1.0.1 NEW USER

Users will be able to create a new User Account by Pressing the New Account Link and filing in their Account Specifications.

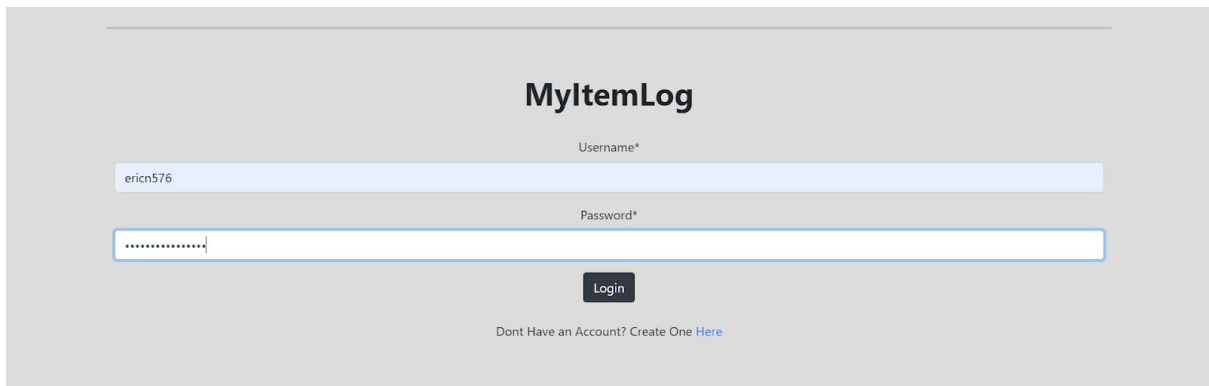

The screenshot shows a registration form titled "Create User". It includes several input fields: "First name", "Last name", "Email*", "Username*", and "Password*". Below the "Password*" field, there are four bullet points listing password requirements: "Your password can't be too similar to your other personal information.", "Your password must contain at least 8 characters.", "Your password can't be a commonly used password.", and "Your password can't be entirely numeric.". Below these is a "Password confirmation*" field. At the bottom, there is a note: "Enter the same password as before, for verification." and two buttons: "Cancel" and "Register".

New User Page

1.0.2 LOGIN

This Page Will allow users to Log Into their User Account with their Unique Username And Password Credentials. If the credentials are valid after pressing the Login Button they will be directed to the Home Page

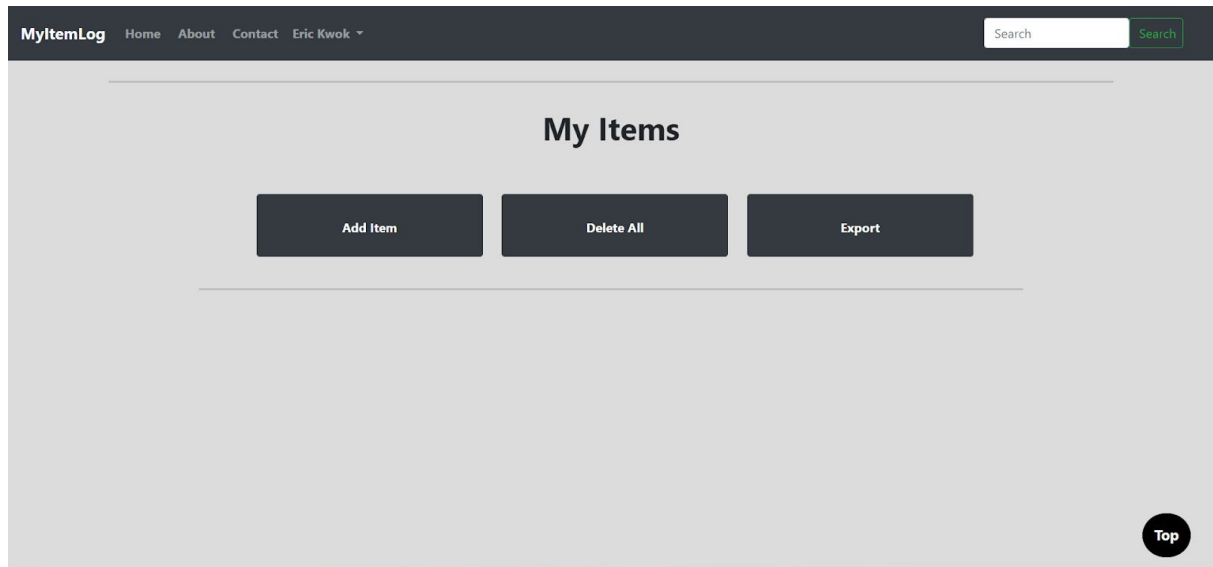

The image shows a login form for a system named "MyltemLog". The form is centered on a light gray background. It features two input fields: a "Username*" field containing the text "erich576" and a "Password*" field containing a series of dots. Below the password field is a dark gray "Login" button. At the bottom of the form, there is a link that says "Dont Have an Account? Create One [Here](#)".

Logging in With User Credentials

1.1 MAIN PAGE

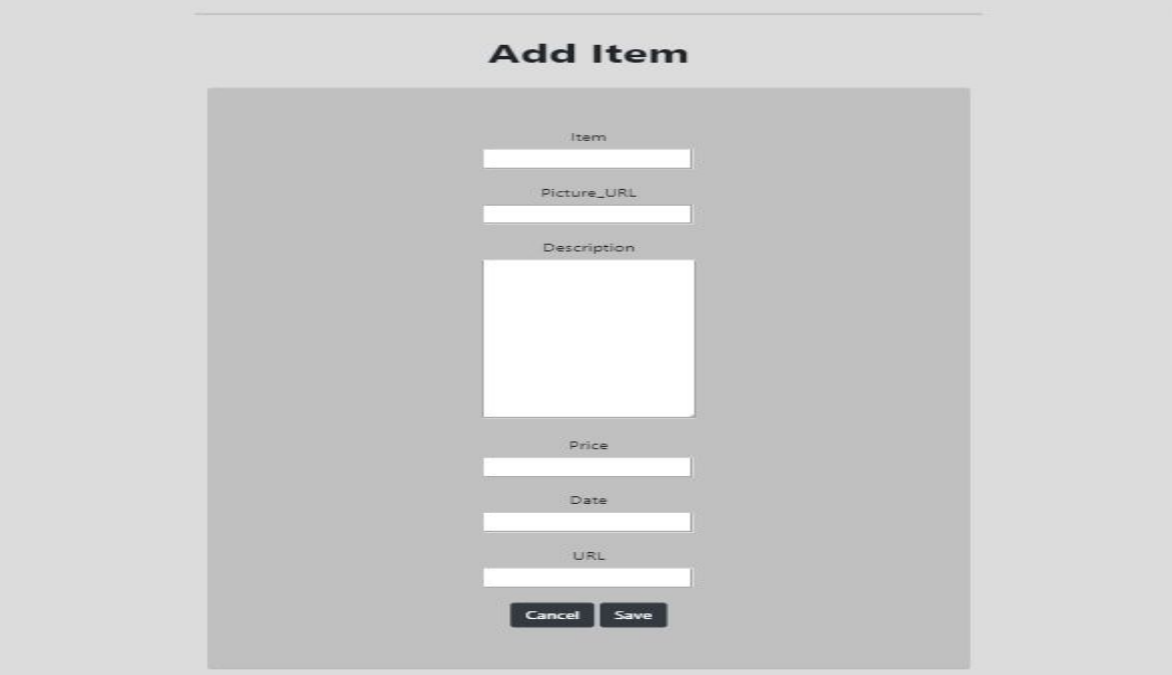

This Home Page Once You Log in to your account will look like this

Home Page

1.1.1 ADD ITEM

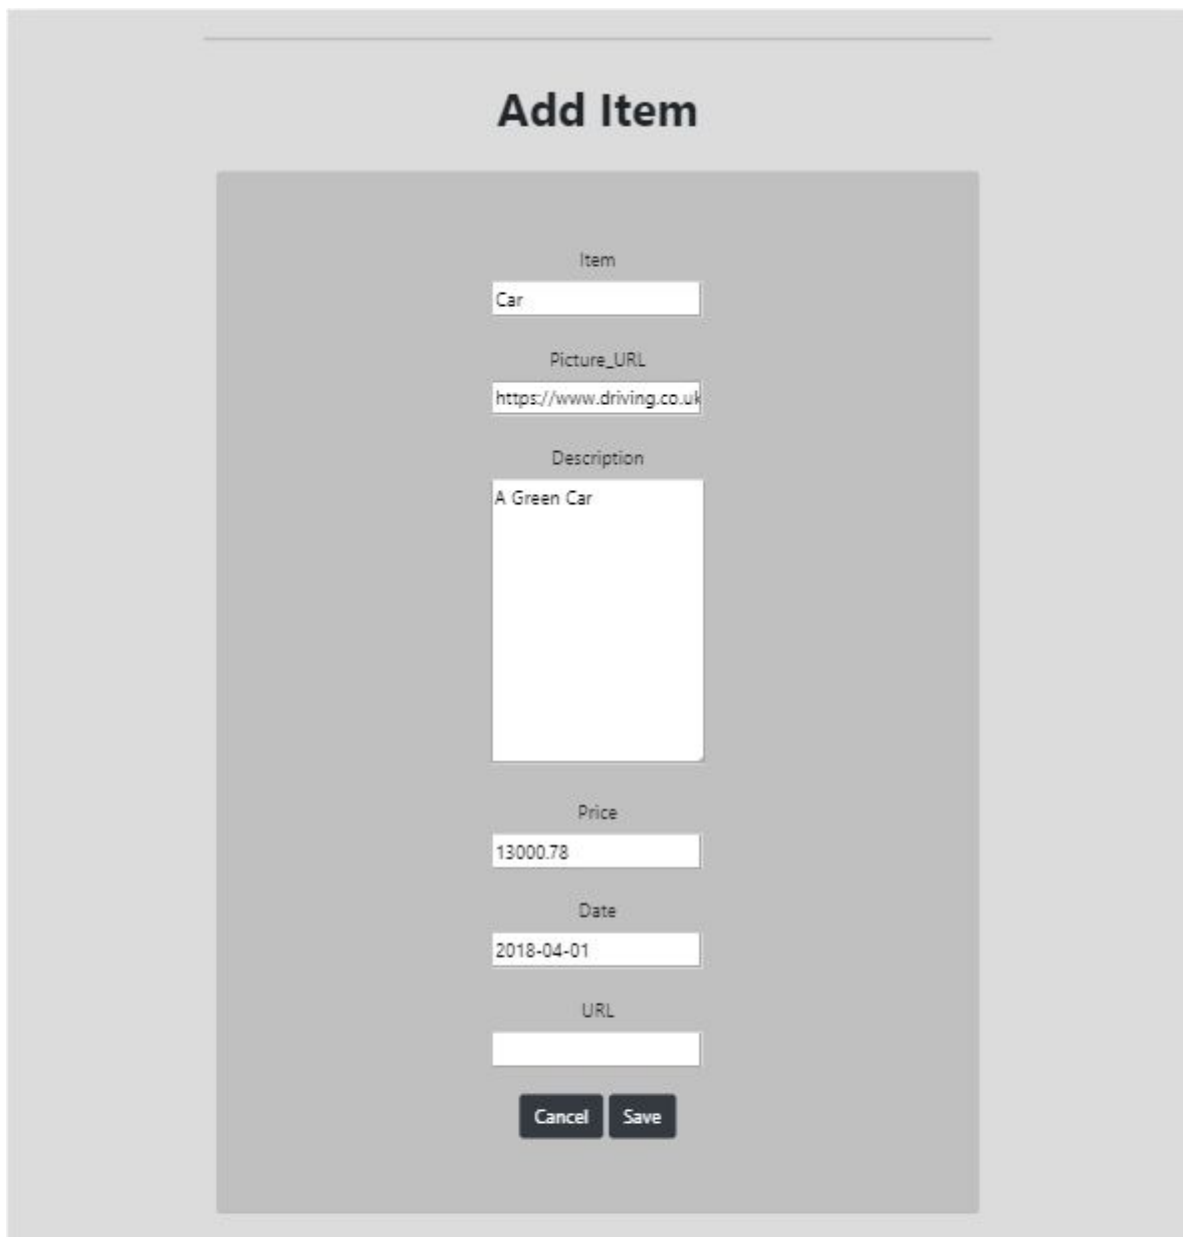

Clicking the Add Item button will direct you to the Add Item Page

A screenshot of the 'Add Item' form. The form is centered on a light gray background. It has a title 'Add Item' in bold. Below the title is a dark gray rectangular box containing the form fields. The fields are: 'Item' (text input), 'Picture_URL' (text input), 'Description' (text area), 'Price' (text input), 'Date' (text input), and 'URL' (text input). At the bottom of the form box are two buttons: 'Cancel' and 'Save'.

Add Item Page

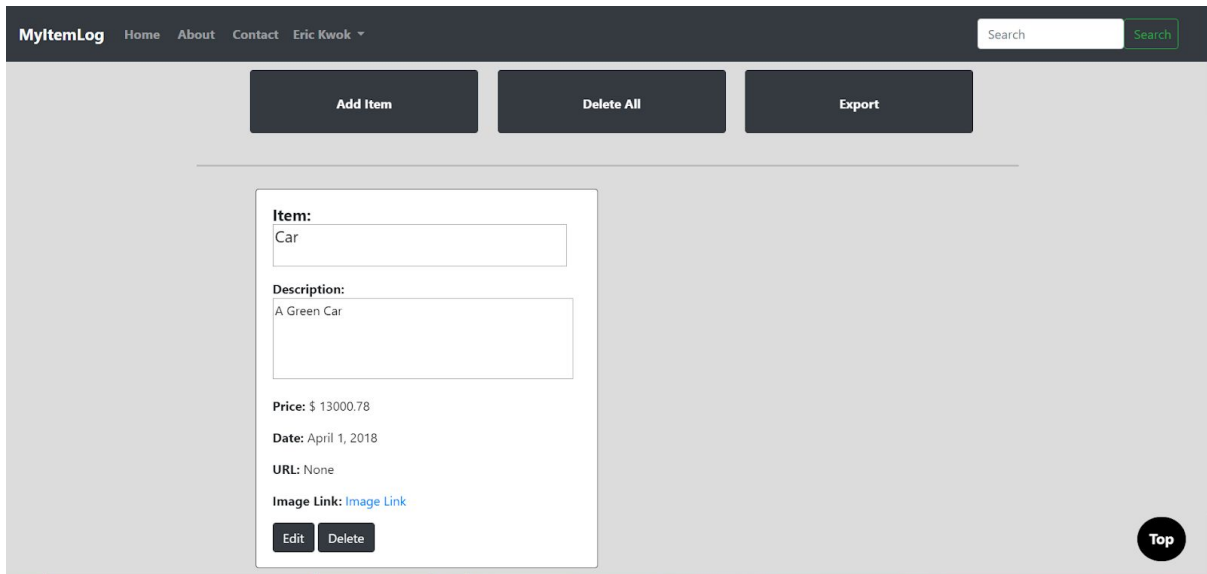

Adding Items: Once the User is on this page they can fill in the certain parameters of the item. When they feel like the information is sufficient they can press the Save Button and they will be redirected to the home page with the updated Item. If they decide to cancel Adding the Item they can just press the Cancel Button and will be directed back to the Home Page.

(The Page Will Validate Whether You Met the requirements to Create an Item)

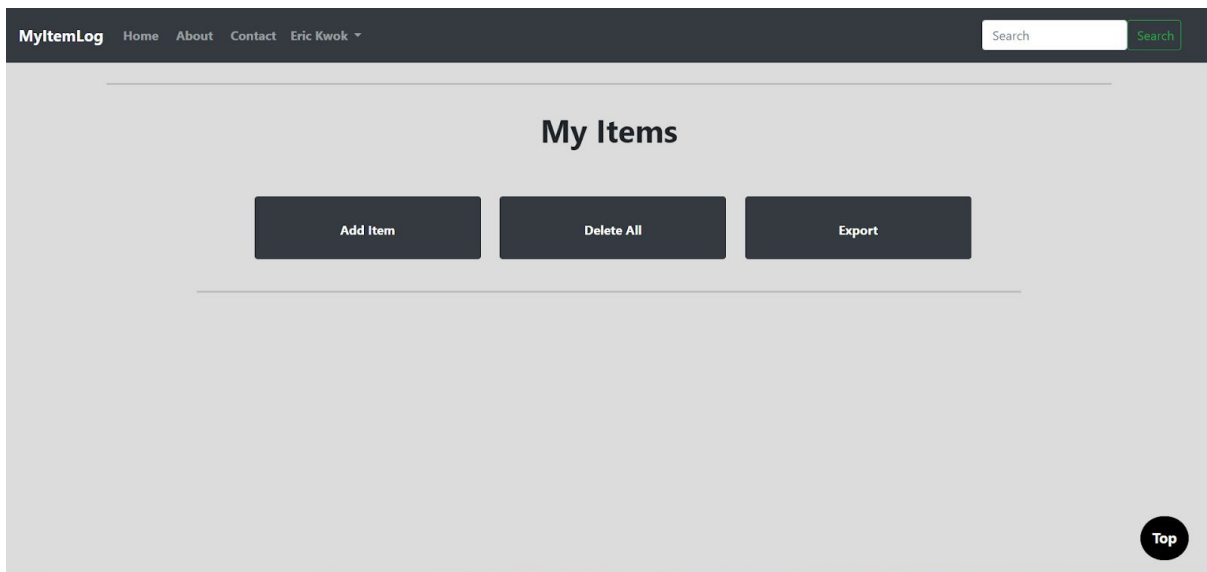

The screenshot displays a web form titled "Add Item" centered on a light gray background. The form itself is a darker gray rectangle containing several input fields and two buttons. The fields are labeled as follows: "Item" with the value "Car", "Picture_URL" with the value "https://www.driving.co.uk", "Description" with the value "A Green Car", "Price" with the value "13000.78", "Date" with the value "2018-04-01", and "URL" which is currently empty. At the bottom of the form are two dark gray buttons labeled "Cancel" and "Save".

Filling In Fields For an Item

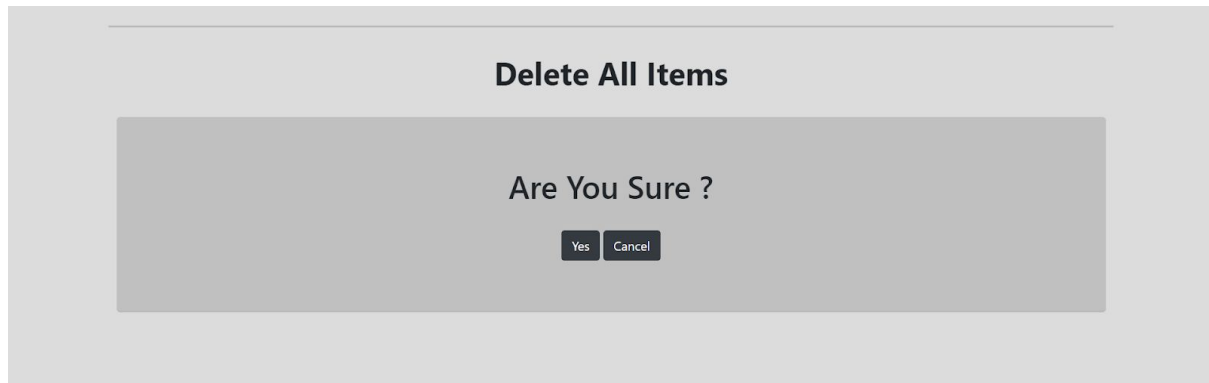

Home Page Updated With Item After Pressing Save

Home Page After Pressing Cancel

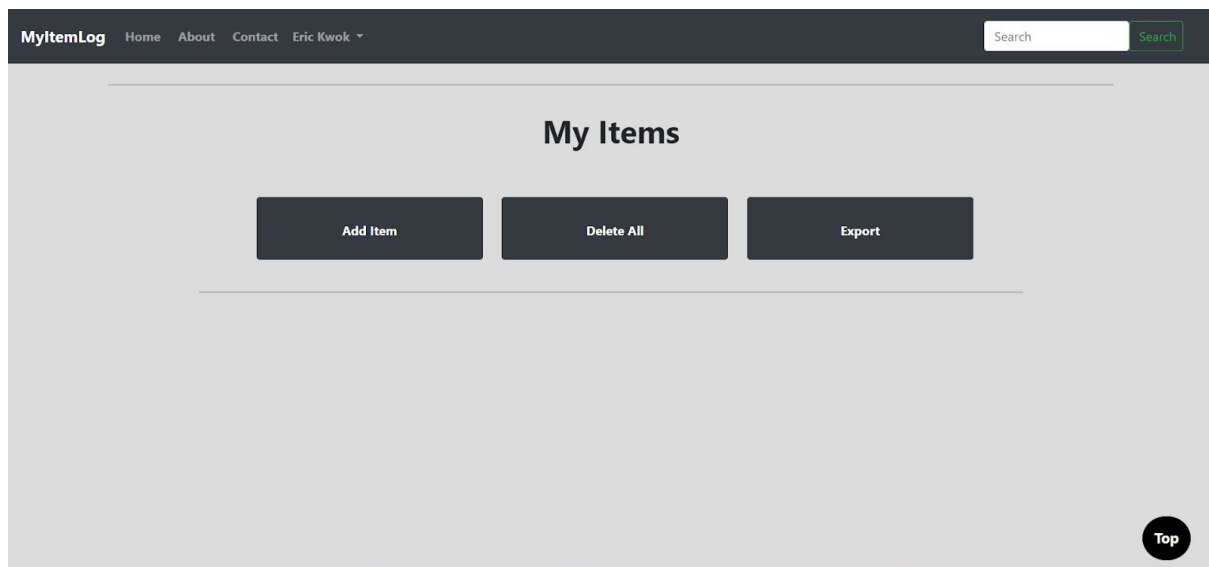

1.1.2 DELETE ALL

Clicking the Delete All Button will direct you to the Delete All Page

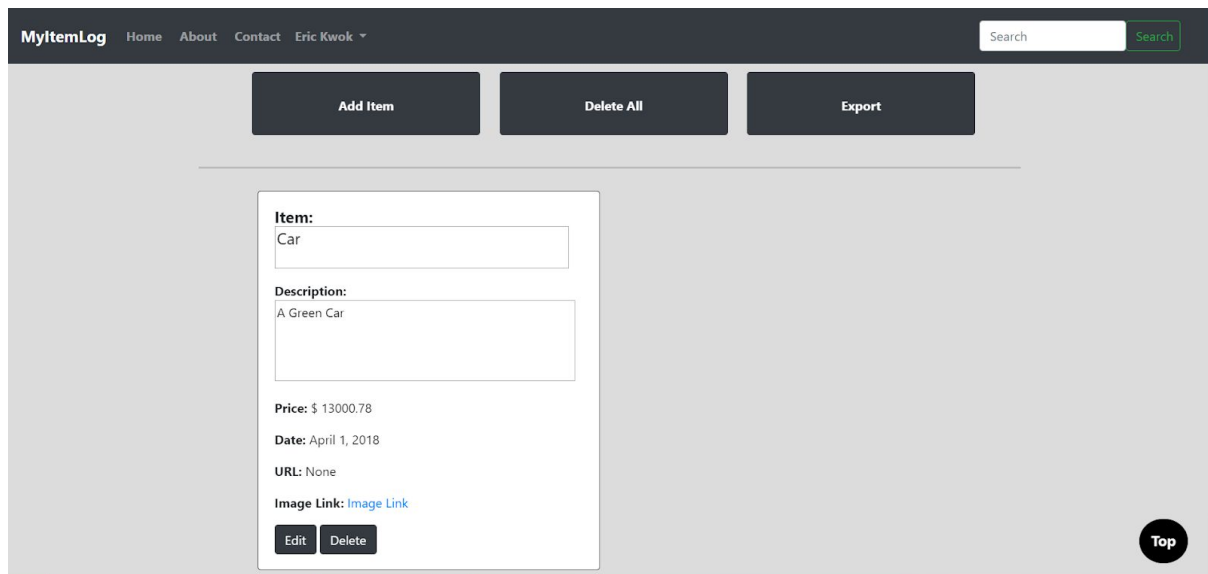

Delete All Items Page

Deleting All Items: Once the User is on this page they will be asked again if they are sure they want to delete all their existing items. If they are sure then they can press the Yes button and will be directed back to the Home page with no existing items. If they decide to cancel Deleting all the Items they can just press the Cancel Button and will be directed back to the Home Page.

Home Page After Deleting All Items After Pressing Yes

Home Page After Pressing Cancel

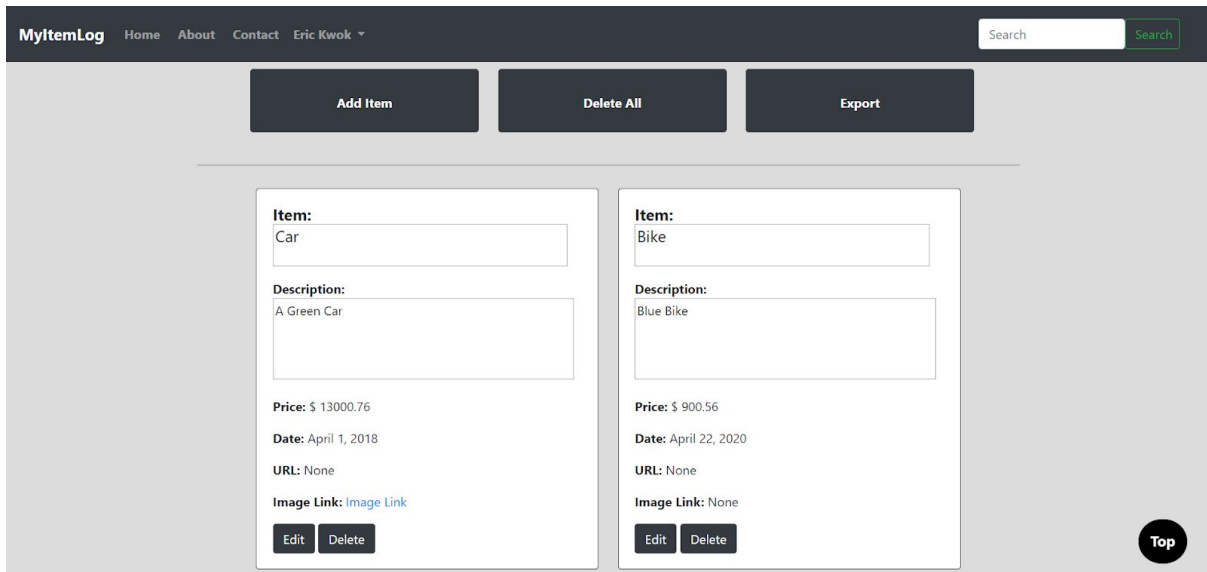

1.1.3 DELETE ITEM

Clicking the Delete Button on an Item will direct you to the Delete Item Page

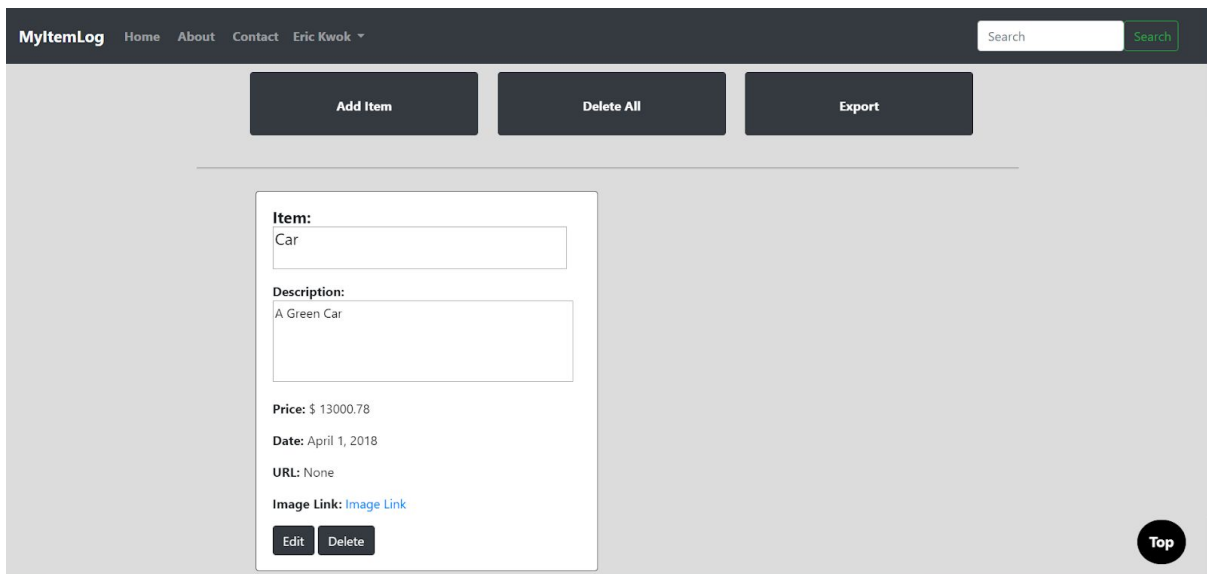

Delete Item Page

Delete Item: Once the User is on this page they will be asked again if they are sure they want to delete the Item they specified. If they are sure then they can press the Yes button and will be directed back to the Home page with the item they chose now deleted. If they decide to cancel Deleting the Item they can just press the Cancel Button and will be directed back to the Home Page.

Home Page With Two Items

Let's say I press the Delete Button for the Second Item

Home Page Updated Without Item After Pressing Yes

Home Page After Pressing Cancel

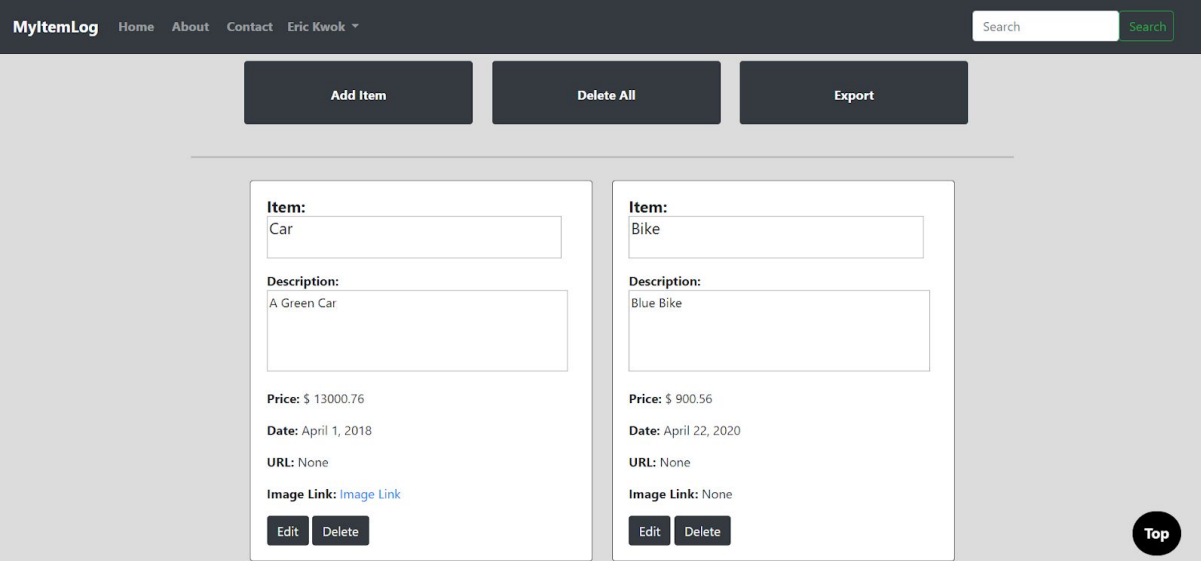

1.1.4 EDIT ITEM

Clicking the Edit Button on an Item will direct you to the Edit Item Page

The screenshot shows the 'Edit Item' page. It features a central form with the following fields: 'Item' (containing 'Car'), 'Picture_URL' (containing 'https://www.driving.co.uk'), 'Description' (containing 'A Green Car'), 'Price' (containing '13000.76'), 'Date' (containing '2018-04-01'), and 'URL' (empty). At the bottom of the form are 'Cancel' and 'Save' buttons.

Edit Item Page

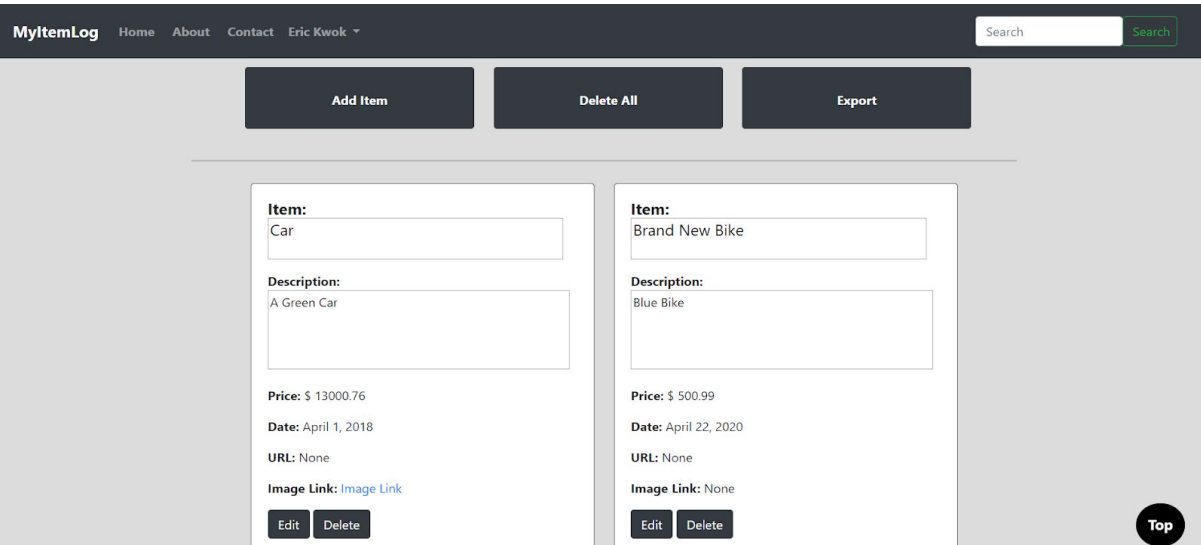

Edit Item: Once the User is on this page they will be given a form with all the existing fields of the Item they chose. They can then make changes accordingly and if they are done, pressing the Save Button will direct them back to the Home Page with their new changes. If they decide to cancel editing the Item they can just press the Cancel Button and will be directed back to the Home Page.

The screenshot shows the MyItemLog application interface. At the top is a dark navigation bar with the logo 'MyItemLog' and links for 'Home', 'About', 'Contact', and a user profile 'Eric Kwok'. A search bar is on the right. Below the navigation bar are three buttons: 'Add Item', 'Delete All', and 'Export'. The main content area displays two item cards side-by-side. The first card is for a 'Car' with a description 'A Green Car', price '\$ 13000.76', date 'April 1, 2018', and URL 'None'. The second card is for a 'Bike' with a description 'Blue Bike', price '\$ 900.56', date 'April 22, 2020', and URL 'None'. Both cards have 'Edit' and 'Delete' buttons at the bottom. A 'Top' button is in the bottom right corner.

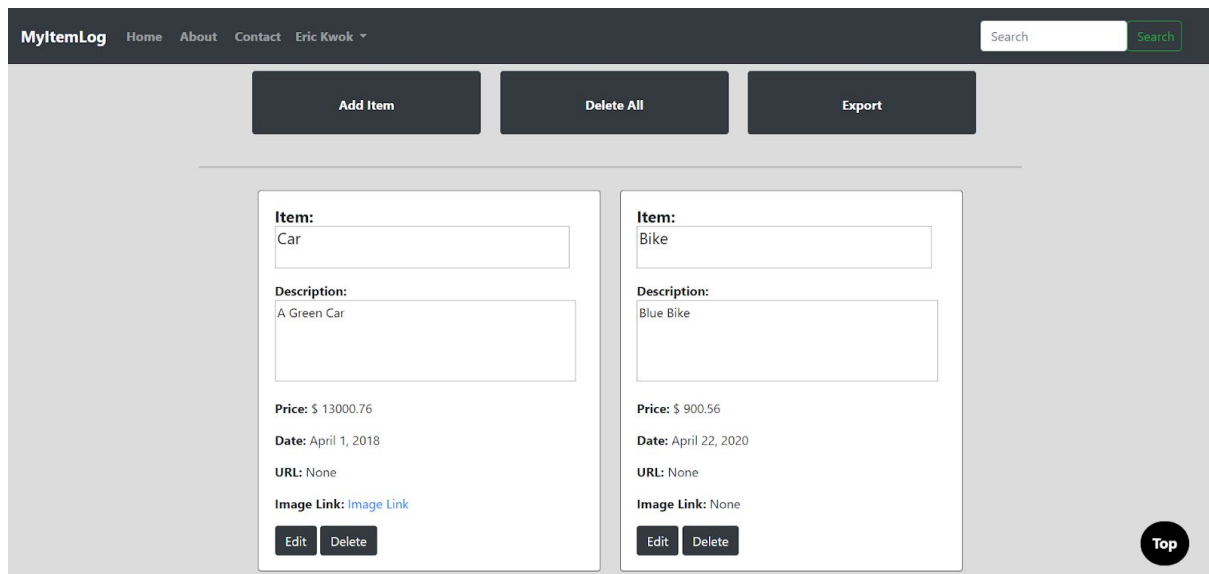

Home Page With Two Items

Let's say I press the Edit Button for the Second Item. I will change the title to “Brand New Bike” and Give a Price of \$ 500.99.

This screenshot shows the same MyItemLog application after the bike item has been edited. The 'Car' item remains unchanged. The 'Bike' item now has a title of 'Brand New Bike' and a price of '\$ 500.99'. The description 'Blue Bike' and date 'April 22, 2020' are still the same. The 'Edit' and 'Delete' buttons are still present at the bottom of each card. The overall layout and navigation bar are identical to the previous screenshot.

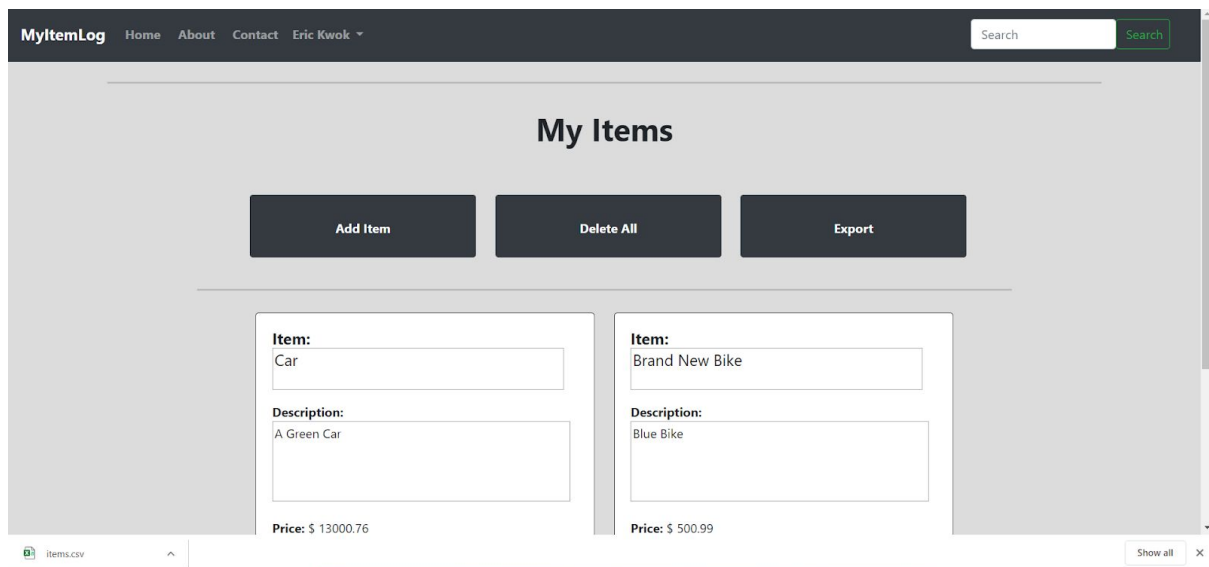

Home Page Updated With Edited Item After Pressing Save

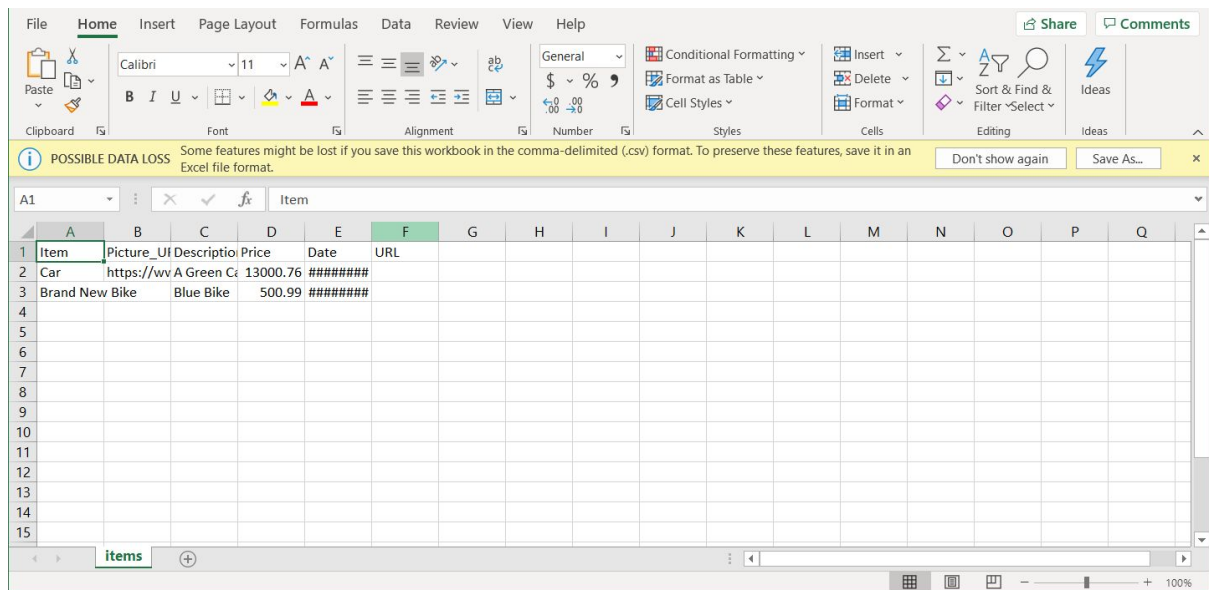

Home Page After Pressing Cancel

1.1.5 EXPORT

Clicking the Export Button will download a CSV file with all the item records existing on your account

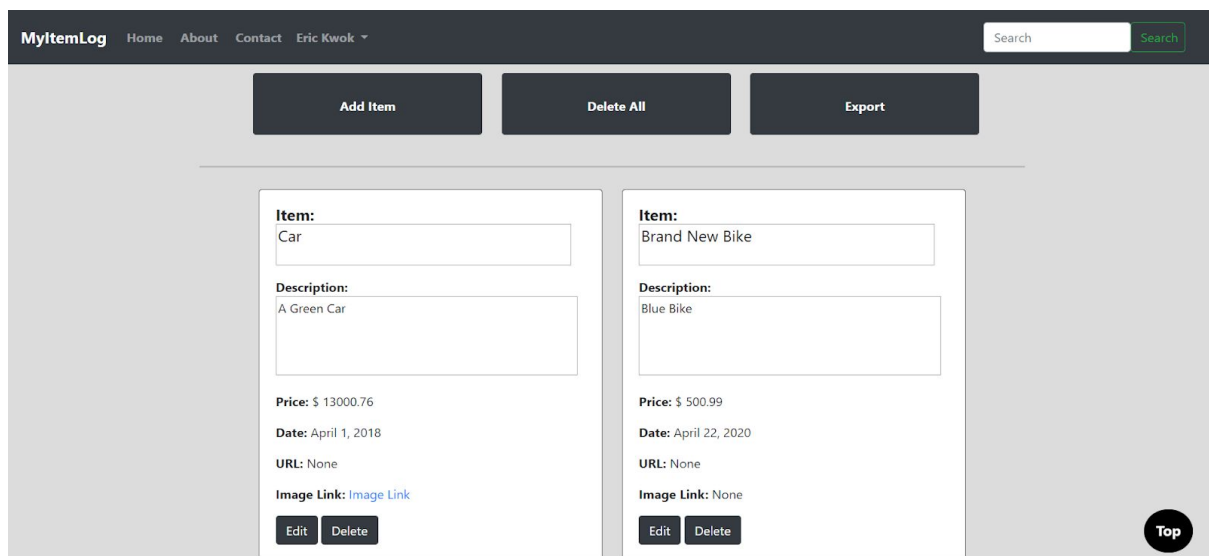

[After Pressing the Export Button]

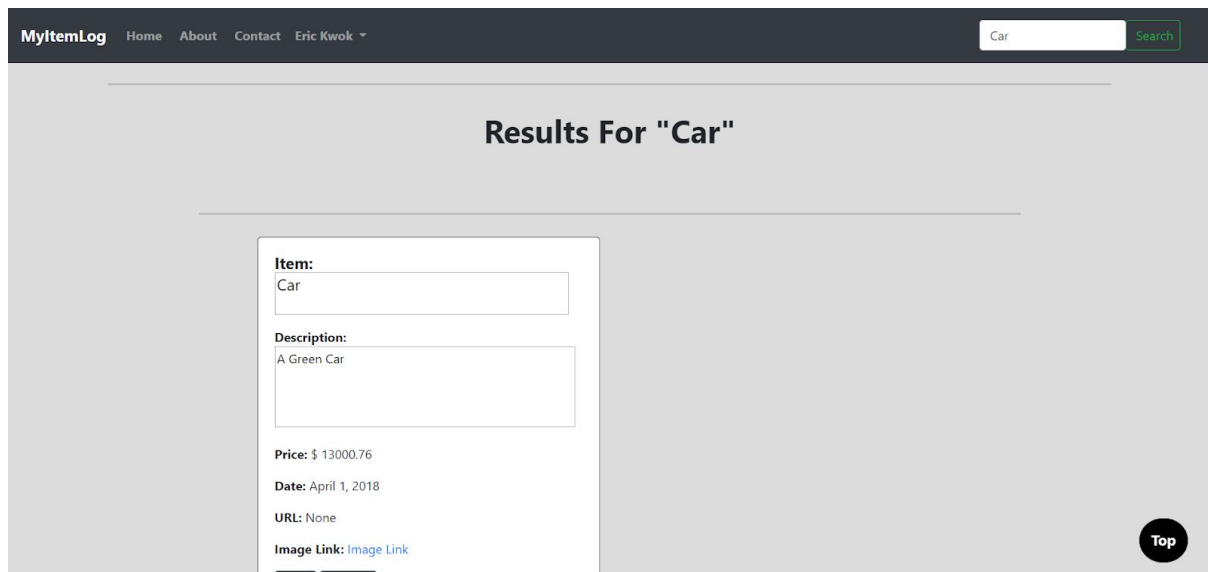

View of the CSV file

1.1.6 SEARCH BAR

Clicking the Search Button will only display items with the text you entered into the box in their Titles. In other words what you enter into the search bar will filter Item Names, Price or Date for you to avoid needless scrolling

Home Page Before Search

Search for KeyWord "Car"
